Captura de nombre

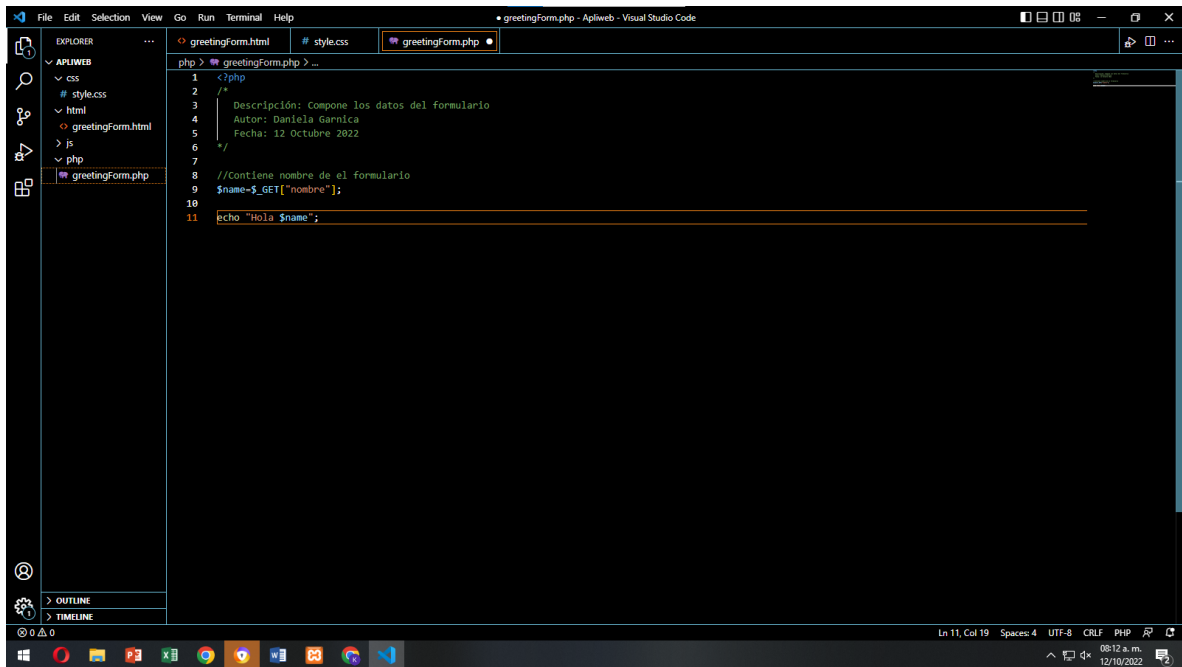

The screenshot shows the Visual Studio Code editor with the file 'greetingForm.html' open. The Explorer sidebar on the left shows the project structure: 'APLWEB' containing 'css' (with 'style.css'), 'html' (with 'greetingForm.html'), 'js', and 'php' (with 'greetingForm.php'). The main editor area displays the HTML code for 'greetingForm.html'. The code includes a meta description, author, and date, followed by a form with a text input and a submit button. The form is styled with a light blue background and a white border.

24 <label for="nombre">Ingresa tu nombre/</label>  
25 <input type="text" class="dato" name="nombre" id="nombre">  
26 <input type="submit" class="bottom" value="Saludar">  
27 </form>  
28 </body>  
29 </html>
```

The screenshot shows the Visual Studio Code editor with the file 'style.css' open. The Explorer sidebar on the left shows the project structure: 'APLWEB' containing 'css' (with 'style.css'), 'html' (with 'greetingForm.html'), 'js', and 'php' (with 'greetingForm.php'). The main editor area displays the CSS code for 'style.css'. The code defines styles for the body, a class '.dato', and a class '.bottom'. The body has a light blue background and a white border. The '.dato' class has a white background and a light blue border. The '.bottom' class has a light blue background and a white border.

```
1 body{  
2   background-color: #B4BBD1;  
3 }  
4  
5 {  
6   margin: 20px;  
7   padding: 20px;  
8   box-sizing: border-box;  
9   width: 500px;  
10  padding: 10px;  
11  margin: auto;  
12  margin-top: 10px;  
13  border-radius: 10px;  
14  font-family: 'Ubuntu', sans-serif;  
15  font-size: 30px;  
16  color: #15, 16, 19);  
17 }  
18  
19 .dato{  
20   padding: 10px;  
21   margin: auto;  
22   margin-top: 50px;  
23   border-radius: 10px;  
24   font-family: 'Ubuntu', sans-serif;  
25   font-size: 20px;  
26   color: #11, 12, 14);  
27 }  
28  
29 .bottom{  
30   background: #B4BBD1;  
31   border-radius: 10px;  
32   font-size: 20px;  
33   color: black;  
34 }  
35 }
```

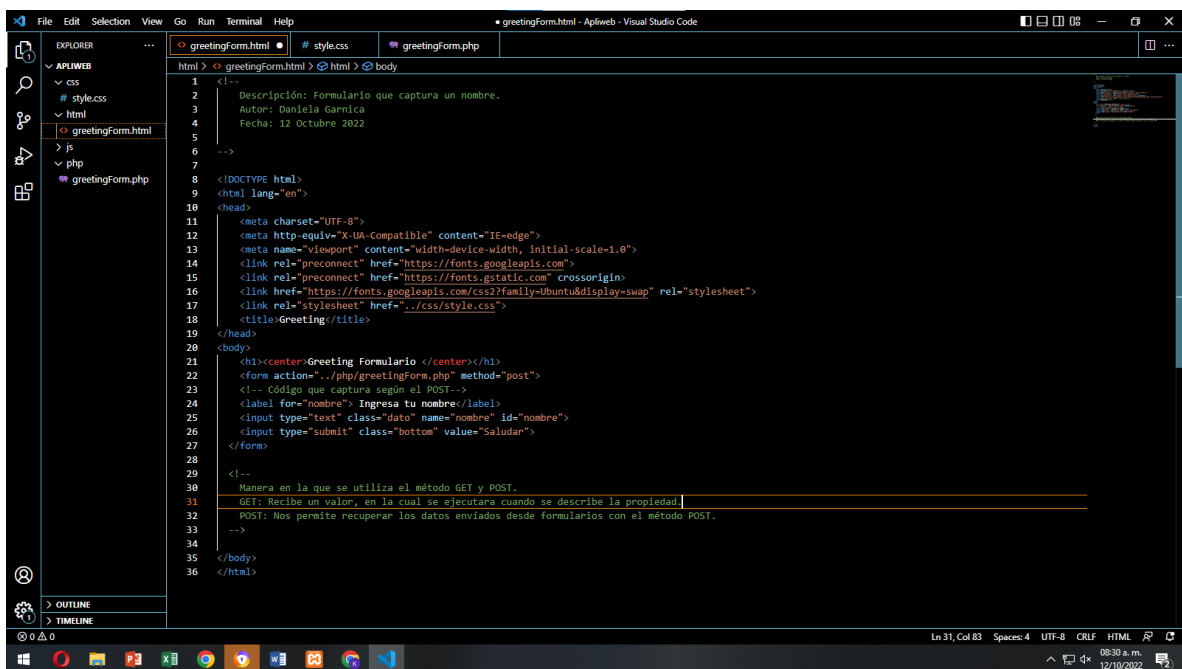

The screenshot shows the Visual Studio Code editor with the file `greetingForm.php` open. The Explorer sidebar on the left shows the project structure: `APLWEB` (containing `css`, `html`, and `php` folders) and `greetingForm.html`. The main editor area displays the PHP code for `greetingForm.php`:

```
1 <?php
2 /*
3  Descripción: Compone los datos del formulario
4  Autor: Daniela Garnica
5  Fecha: 12 Octubre 2022
6 */
7
8 //Contiene nombre de el formulario
9 $name=$_GET["nombre"];
10
11 echo "Hola $name";
```

The status bar at the bottom indicates the cursor is at Line 11, Column 19, with 4 spaces, UTF-8 encoding, CRLF line endings, and the PHP language mode.
